

FlashAcademy® for families

Welcome!

What is FlashAcademy®?

FlashAcademy® is a learning app for children who speak another language at home and use English at school. It helps children who are new to English or still learning it. The app can be used in **48 home languages**.

The app uses **lessons, games, and smart technology** to help each child learn at the right level.

Assessment

Your child will do an English test with their teacher using **FlashAcademy®**. Your child does not need to prepare for the test.

ABC
123

Assessments

The teacher will check four skills:

Listening

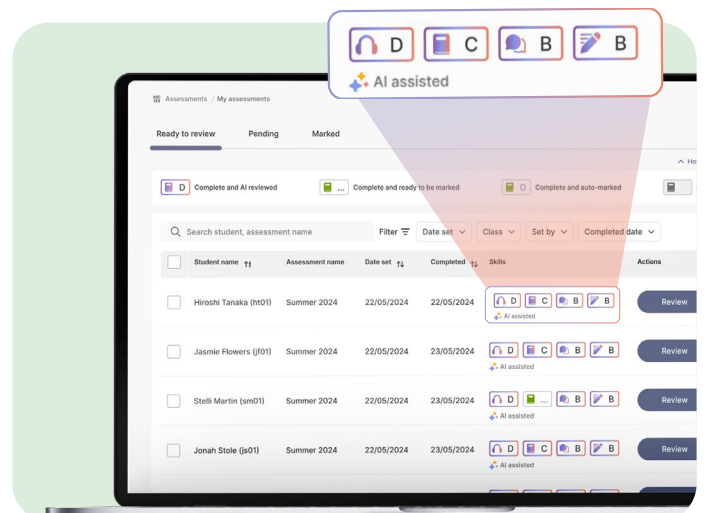

Speaking

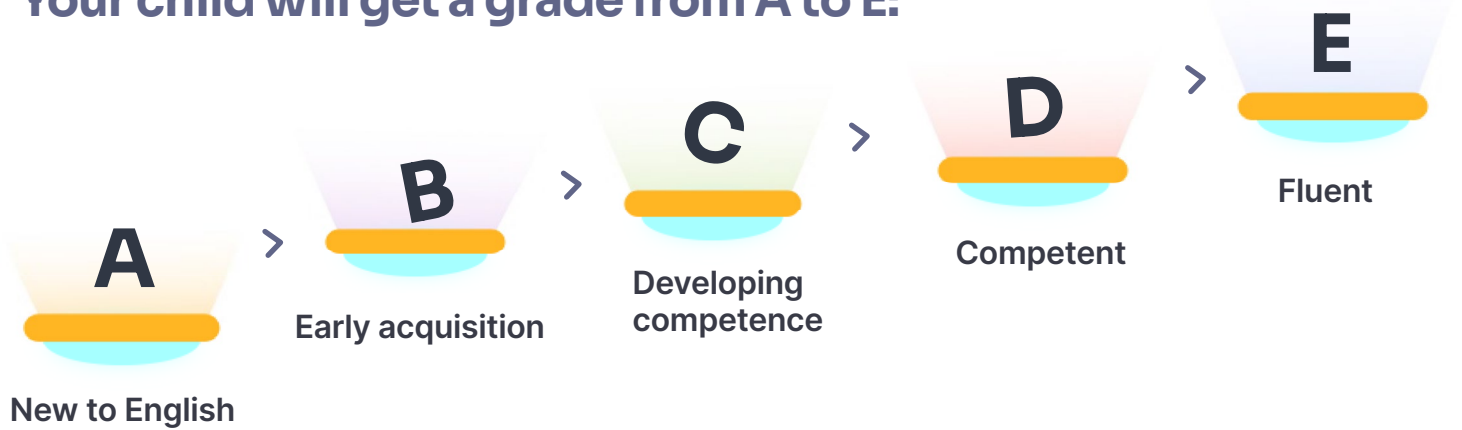

Reading

Writing

Your child will get a grade from A to E:

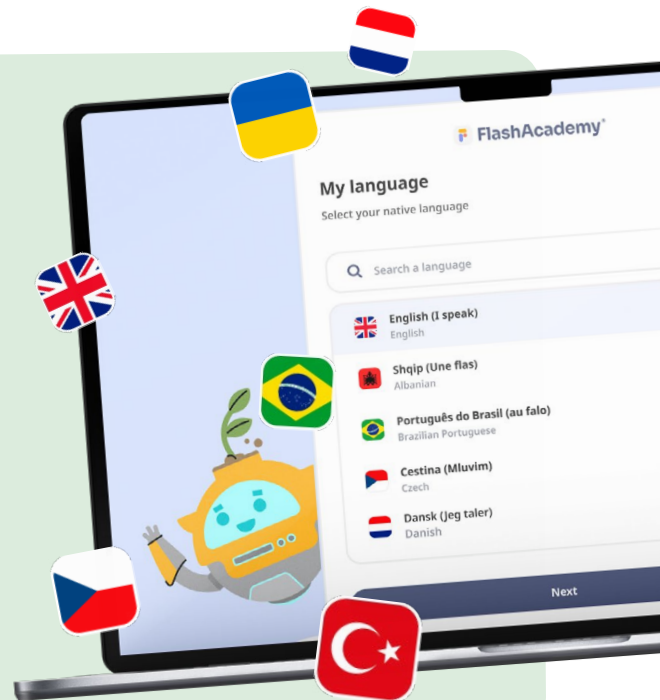

Home languages

Speaking more than one language is a great skill. It can help your child think, learn and remember more easily.

FlashAcademy® lets your child use their home language while learning English. This helps them connect new words to things they already know.

It is important to keep speaking your home language at home. You can also practise English together. Using both languages will help your child learn.

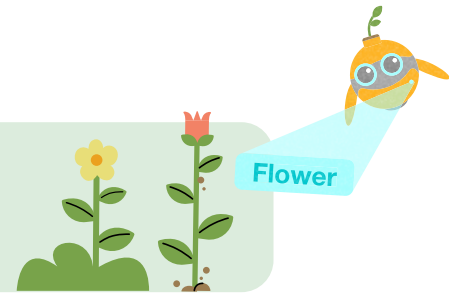

Lessons

FlashAcademy® follows the UK Curriculum. It can be used from Key Stage 1 (age 5) to Key Stage 4 (age 16).

Your child will learn:

🌿 grammar 🌿 handwriting 🌿 phonics 🌿 vocabulary

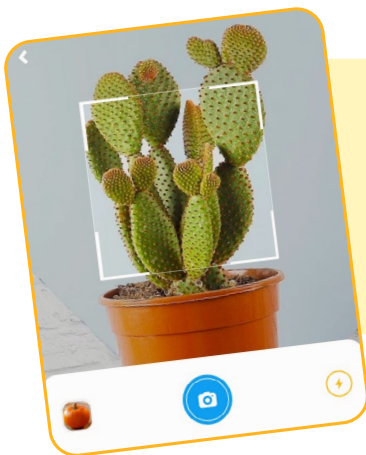

XP achieved

1,000

Your child earns **XP points** for completing lessons. They can unlock games as rewards.

The lessons use pictures, videos, sound and words.

The app also has a camera tool called the **object translator**. Your child can point a phone or tablet at an object. The app will say the English word for it.

There is also a **pronunciation tool**. Your child says a word out loud, and the app checks if they said it correctly. This helps them practise speaking English.
